

IAPA: Integration of Amazon Protected Areas

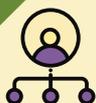

Thematic groups

A strategy for capacity building and consolidation of the **Amazon Vision of REDPARQUES**

Why they were created?

To consolidate the first progress report of the Program of Work on Protected Areas (PoWPA; 2010) and its update (2011-2015) for the Amazon biome.

Who is part of them?

Professionals of the National Systems of protected areas of the eight countries and the French territory.

14 thematic group meetings

have been held since 2008 until today,

How they work?

As a space for capacity building and technical work related to the updating and evaluation of conservation **opportunities, management effectiveness, financial sustainability and governance of protected areas for the Amazon biome.**

generating capacities in

95 technical delegates,

directors of protected area systems and partners.

What is the REDPARQUES?

The Latin American Network of Technical Cooperation in National Parks, other Protected Areas, Wild Flora and Fauna (REDPARQUES) **is a technical mechanism constituted by public and private institutions and by specialists of the member countries of the region that work on protected areas, wild flora and fauna.** Its objective is to progressively increase the technological and management capacity, based on the capacity building and knowledge among the members, using their own technical, human and financial resources.

Our meeting points 2008-2017

- BOGOTA**: Building Workshop of the Amazonian Vision, Thematic group Conservation Opportunities
- LETICIA**: Thematic group Management Effectiveness
- LIMA**: Thematic group Conservation Opportunities
- GEORGETOWN**: Thematic groups integrated Workshop
- MANAOS**: Thematic group Management Effectiveness
- SAO PAULO**: Thematic Group on Financial Sustainability
- CURITIBA**: Thematic Group on Financial Sustainability
- LA PAZ**: Thematic Group on Governance
- COBIJA**: Thematic Group on Governance

Our achievements

1 Collectively build the PoWPA Report for the Amazon biome 2010 and its update (2011-2015).

2 Report PoWPA update (2016-2017) for the Amazon biome.

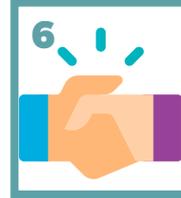

3 Report the progress in the fulfillment of Aichi Target 11 for the Amazonian countries and the biome.

4 Validate the reference protocol for the measurement of management effectiveness at the biome scale.

5 Identify the approaches and visions of the countries to put into practice the principles of good governance of IUCN at biome level.

6 Prioritize the financial mechanisms for the design of the biome PoWPA financial sustainability strategy.

7 Exchange experiences between SNAPs and bilateral collaboration agreements at the level of the tri-border landscapes or at the biome level.

8 Generate inputs and feedback in the Analysis of climate change vulnerability and the conservation opportunities Atlas in the Amazon biome under considerations of climate change.

1

Our recommendation

Through the work with thematic groups, REDPARQUES will continue its contribution to the administration and management effectiveness of protected area systems, facilitating the capacity building and the consolidation of the Amazonian Vision.

2

The challenge

Ensuring the maintenance of the thematic groups beyond the projects to generate joint processes that dynamize the work of the Amazonian Vision.

3

The action

Retake and maintain this good practice to guarantee the consolidation of the Amazonian Vision and the strengthening of technical capacities at regional level.
